

IGNITEX STUDENT INNOVATION PROGRAM™

EXPLORE. CREATE. INNOVATE. LEAD.

Preparing students for a rapidly changing future
shaped by AI and evolving technologies.

THE WORLD OUR STUDENTS ARE ENTERING IS **CHANGING.**

Artificial Intelligence and emerging technologies are transforming how people:

BUILD

Develop.
Prototype.
Automate.

WORK

Collaborate.
Execute.
Decide.

THINK

Research.
Learn.
Analyse.
Solve.

CREATE

Imagine.
Design.
Communicate.

LIVE

Interact.
Adapt.
Experience.

AI

The question is no longer whether students will encounter **AI**.

The question is how we **prepare** them for it.

WHAT SHOULD A FUTURE-READY STUDENT BE ABLE TO DO?

The future-ready student will not simply need to know how to use technology. They will need to know how to think, create, innovate and lead in a world where technology is increasingly capable of doing more.

01

THINK

Question • Analyse • Reason

Students need to question information, examine evidence, understand problems and make sense of increasingly complex environments.

02

CREATE

Imagine • Experiment • Build

Students need to turn ideas into meaningful creations, using technology as a tool for expression, experimentation and development.

03

INNOVATE

Identify • Explore • Improve

Students need to recognise problems, explore possibilities, test ideas and continuously improve what they create.

04

LEAD

Decide • Communicate • Take Responsibility

Students need to make decisions, communicate effectively, collaborate with others and remain accountable for the outcomes of their choices.

**Technology can amplify capability.
Human judgement determines how it is used.**

IGNITEX

STUDENT INNOVATION PROGRAM™

A journey that enables students to
Explore → Create → Innovate → Lead
into a rapidly changing future
shaped by AI and evolving technologies.

AI-CENTRIC

AI and emerging technologies are integral to the student experience.

HUMAN-CENTRIC

Thinking, creativity, judgement and responsibility remain at the centre.

EXPERIENCE-CENTRIC

Students learn by exploring, creating, building, testing, improving and reflecting.

IgniteX is not simply about teaching students technology. It is about developing students who can use technology to **think better, create meaningfully, solve problems** and make **responsible decisions**.

THE IGNITEX DIFFERENCE

CONVENTIONAL TECHNOLOGY EXPOSURE

VS.

IGNITEX

Focus is on using the tool and completing the task.

Focus is on developing capability and creating meaningful impact.

IgniteX moves students beyond simply learning how a technology works. Students learn to question, investigate, create, test, challenge and improve—developing capabilities that remain valuable even as technologies change.

**TECHNOLOGY
IS THE ENABLER.**

**STUDENT CAPABILITY
IS THE OUTCOME.**

AI CAPABILITY WITHOUT RESPONSIBILITY IS NOT FUTURE READINESS.

Students must learn not only:

When should I use AI?

Can I trust its answer?

What should I verify?

What remains my responsibility?

THE IGNITEX RESPONSIBLE AI MODEL

AI ASSISTS

HUMAN THINKS

HUMAN QUESTIONS

HUMAN VERIFIES

HUMAN EVALUATES

HUMAN DECIDES

HUMAN REMAINS ACCOUNTABLE

“

We don't want students to outsource their thinking to AI. We want them to learn how to amplify their capabilities through **responsible human-AI collaboration.**

”

FROM LEARNING ABOUT INNOVATION TO EXPERIENCING INNOVATION

IgniteX learning is built around a cycle of inquiry, creation and improvement. Students are repeatedly challenged to move beyond an idea and examine whether what they create actually works.

Students do not just complete projects.
They experience the innovation process.
This builds confidence, capability and a mindset for the future.

IGNITEX FUTURE LAB™

How AI Is Changing the Way
People Think, Create & Build

FREE

2-HOUR HANDS-ON
STUDENT EXPERIENCE

THINK

Research • Learn • Analyse • Ideate

CREATE

Write • Design • Visualise • Communicate

BUILD

Code • Prototype • Automate • Create

IgniteX Future Lab is a dynamic 2-hour experience where students explore the power of AI and emerging technologies through guided, hands-on activities. They will think deeply, create boldly and build meaningful solutions—experiencing how innovation happens in the real world.

Be curious. Be creative. Build the future.

Hands-on learning

Real activities.
Real impact.

Future-focused skills

Explore AI, creativity,
and innovation.

Build with purpose

Create solutions
that matter.

Inspire what's next

Spark curiosity.
Shape the future.

WHAT THE SCHOOL GAINS

IgniteX strengthens your school's ability to prepare students for a world shaped by AI and emerging technologies.

01 FUTURE-READY STUDENTS

Students build powerful capabilities—critical thinking, creativity, problem solving and innovation—needed in a rapidly changing world.

02 RESPONSIBLE AI CULTURE

Students learn to use AI thoughtfully, ethically and accountably—developing judgement that technology cannot replace.

03 STRONGER LEARNING OUTCOMES

Experiential, inquiry-driven learning deepens understanding, improves engagement and helps students apply knowledge to real-world situations.

04 EMPOWERED EDUCATORS

Teachers gain new tools, strategies and confidence to guide students through future-focused learning experiences.

05 DIFFERENTIATION & REPUTATION

A distinctive innovation offering enhances your school's positioning as a forward-looking, future-ready institution of choice.

06 LONG-TERM VALUE

IgniteX builds a sustainable culture of innovation that grows with your school and adapts to the future with confidence.

IgniteX is not just an add-on program. It is an investment in your students, your educators and your school's future.

IGNITEX BENEFITS EVERY STAKEHOLDER

STUDENT

Builds skills, confidence and future readiness.

TEACHER

Empowered to teach, guide and inspire.

SCHOOL

Strengthens learning, reputation and impact.

PARENT

Sees real growth, progress and purpose.

FUTURE

Creates responsible innovators who build a better tomorrow.

DESIGNED AROUND THE SCHOOL— NOT AROUND A FIXED DELIVERY MODEL

Every school is unique. Your academic priorities, co-curricular vision, resources and student needs determine what will have the greatest impact.

That is why IgniteX is not a one-size-fits-all program. It is a flexible framework that adapts to your context and strengthens what you already do well.

We work with you to integrate IgniteX experiences where they create the most value for your students—within your curriculum, initiatives, clubs, labs or special programs. You decide the starting point. We support the depth and growth.

SCHOOL CONTEXT		POSSIBLE IGNITEX INTEGRATION
	Innovation & Enrichment	Student innovation experiences that spark curiosity, creativity and problem solving.
	Experiential Learning	Challenge-based learning that connects concepts to real-world situations through doing.
	Technology Initiatives	AI and emerging technology experiences that build future-ready capabilities and digital confidence.
	Clubs & Labs	Extended exploration for curious students through clubs, labs and maker spaces.
	Project-Based Learning	Real-world creation where students ideate, build, test and improve meaningful solutions.
	Special Experiences	Future-focused workshops, bootcamps and events that inspire and energize the entire school community.

IgniteX fits into your school's journey.

You choose the context. We bring the depth.

START SMALL. GROW MEANINGFULLY.

IgniteX is designed for a journey, not a jump.
You can begin with a simple experience and expand
at a pace that fits your school’s goals and readiness.

EXPERIENCE

Start with a FREE
IgniteX Future Lab™
2-hour hands-on
student experience.

EXPLORE

Begin with two Journeys,
demonstrate meaningful
transformation, and expand
with growing confidence.

PARTNER

Integrate IgniteX into your
curriculum, initiatives
or labs—with a plan
that works for you.

GROW

Expand impact across
more students, more
programs and deeper
capabilities over time.

Students explore,
experience the power
of AI and innovation,
and get inspired.

Students build skills,
confidence and ownership
through guided,
experiential learning.

We partner with your
school to embed, support
and scale with quality
and consistency.

A culture of innovation
becomes part of your
school’s DNA.

No large commitment is required to begin.
One experience. One step.
A powerful start to your students’ future.

You choose the
starting point.
**We walk with you
every step of the way.**

Let’s begin with the next step.
Book a **FREE IgniteX Future Lab™**
for your students.

Simple to start.
Meaningful forever.

Build Future-Ready Students

LET'S PREPARE STUDENTS FOR THE WORLD AHEAD.

We invite your students to experience the
IgniteX Future Lab's FREE 2-hour hands-on
experience on **How AI Is Changing the Way
People Think, Create & Build.**

An experience that will spark curiosity,
builds skills and inspires what's next.
